

REMARKS

Considering of the outstanding Office Action, the applicant has amended the specification and claims to more particularly define the invention. The specification have been amended to add the reference signs, 317 and 321, and correct the error of "light valve 221" in paragraph 0029. Claim 2 has been merged into claim 1, and claim 2 and 6-9 have been canceled. The amendments do not introduce new matter and are fully supported by the specification and drawings as originally filed.

In view of the above corrections and further amendments, favorable reconsideration and allowance of claim now present in the application are most respectfully requested.

Sincerely yours,
